Subject: Pretty Prairie; Scope of Services (SOS) for planning grant

Scott,

There has been no communication, from us, or from them, regarding an order. If they sign for the planning grant they will be responsible for complying with the provisions of the signed grant agreement. While the city appears to be moving ahead with an updated study KDHE will not pursue formal enforcement. It took years to get them re-engaged on the nitrate matter and we are not anxious to stall any momentum that has been gained recently.

Once the updated study has been completed we believe the discussion and negotiation of a consent order will be appropriate. I'm assuming they will want to continue to work with KDHE but that has not been confirmed by the city at this point.

Thanx,
Darrel

Darrel,

Has Pretty Prairie indicated that they intend to sign a Consent Order with KDHE?

Thanks
Scott

Sid,

We have reviewed the Scope of Services (SOS) for the Pretty Prairie planning grant. The SOS indicates that the study will be an update of the PER completed by Wilson & Co. in 2007. For clarification purposes, KDHE would anticipate that the PER prepared under this planning grant would be a separate, stand alone report completed and prepared by B/G using information where relevant from the Wilson & Co. report. We want to insure that the information in the report reflects present day conditions.

I plan to prepare the grant agreement for City signature next week. Please let me know if you have any questions or need additional information.

Thanks,

Cathy

Cathy,

Attached is a copy of our Engineering Services agreement with the City of Pretty Prairie. As we discussed in our phone conversation earlier today, the earlier submittal of the application signed by the City is all that you need to receive from them; along with this agreement; to begin the process for approving their planning grant project. Please let me know if there are any questions concerning the provisions of the attached agreement. If you find it acceptable for your program, please send the planning grant agreement for the city's signature to:

Mayor Michael Seyb
City of Pretty Prairie
119 W. Main
Pretty Prairie, KS 67570-0068

Thank you for your assistance in matter.
Sincerely,

Sid

The application is all that I need to approve a planning grant project. I will need a copy of the agreement between the City and BG before a grant agreement can be executed. Once I have the engineering agreement between the City and BG, I will send an agreement to the city for signature, the city will return 2 signed agreements back to me, I will route to Secretary Moser for signature. Upon Sec. Moser's signature the agreement will be considered executed and work can begin on the study.

Please let me know if you have any questions.

Thanks,

Cathy

William,

I met with Patti Brace and Mayor Mike Seyb earlier today and discussed what they needed to submit for the planning grant pilot project. They are ready to submit the attached original forms to KDHE, but I thought I would have you look it over prior to them doing so to verify this is all they need to submit at this time. We have already executed a contract for preparing the PER. Would you like to have a copy of it as well?

Thank you for considering this request.

Sid
